

WILL CELEBRATE ITS ANNIVERSARY

First Baptist Church Will Observe
Seventy-fifth Anniversary of
Its Organization.

WAS ORGANIZED JUNE 29, 1839

Former Pastors Are Being Invited
to be Present and Assist in the
Celebration on June 28.

The First Baptist church of this city is preparing to celebrate the seventy-fifth anniversary of its organization on Sunday, June 28th. The committee in charge of the program is preparing a history of the church to be read on this occasion and letters are being sent to all former pastors who are known to be living. These pastors are being invited to attend the celebration if possible and if they cannot attend to send a letter of greeting to be read at this occasion. The list of pastors being invited are as follows: Revs. A. Ogle, Indianapolis; A. B. Chaffee, Chicago; L. B. Albert, E. T. Fox, Toronto, Canada; R. E. Neighbor, Indianapolis; J. W. Clevenger, Greensburg; A. B. Conrad, Ithaca, N. Y.; W. C. Martin, Ft. Myer, Fla.; F. M. Huckleberry, Linton, all of whom preceded the present pastor, Rev. Charles L. Graham.

In addition to inviting the former pastors to be present, invitations will be sent to a number of people who were formerly members of the church and have moved away. The committee in charge of the program consists of Edward A. Remy, Mrs. M. C. Carpenter, Mrs. S. H. Huffman, N. M. Carlson, Mrs. H. G. Stratton, Mrs. B. W. Cunningham. They are planning an elaborate program for the day's services which will probably last all day, although definite details have not yet been worked out.

The First Baptist church of Seymour was organized June 29, 1839 three miles southeast of Seymour, where it was known as the Liberty Baptist church. It was located on the corner of the farm now owned by Owen Roeger. It continued in this location for about twenty years. In 1858 a committee was appointed to select a site in the new town of Seymour and in March 1859 the new building was dedicated on the present site. One person who visited here at that time wrote back home that they had attended the Baptist church located far out of town in the forest, although the distance was then as now only two blocks from the Pennsylvania station.

The frame building erected at that time was used as a meeting house until the present brick building was erected in 1884 during the pastorate of Rev. A. Ogle. The old building was bought and used as an office building and warehouse by the Ho-dapp Hominy Company prior to the erection of their present office building. The old building is still located on the rear of the lot.

Another feature which will be connected with the anniversary is the clearing of the indebtedness of the church for the brick street improvement and two furnaces which were put in two years ago. The committee having charge of this work

consists of Jay C. Smith, J. Robert Blair, Mrs. L. B. Hill, Miss Margaret Remy, Arthur P. Carter, W. H. Hughes. This indebtedness originally was over \$1,100. At the beginning of the present year \$908.11 remained unpaid. On Easter the Sunday School raised \$230.79 to be applied on this indebtedness. Last Sunday a self-denial offering was taken by the church which amounted to \$438.04. The proceeds of the auto excursion Tuesday evening amounting about \$55.00 is to be applied on this indebtedness, leaving a balance of about \$200 including the estimated expense of the anniversary celebration to be raised before the anniversary celebration. Plans are under consideration to complete this before the Sunday of the anniversary is possible, so that the celebration may be held without any financial feature in the program and that it may be one of general rejoicing over the history of the church and its being free from debt.

This First Baptist church consists of about 350 members. It is well organized for active work and is one of the important churches in the city. It has had a long line of able ministers and has held an important place in the Baptist work in the state during its entire history. Its plans for immediate future following the celebration include the installation of a pipe organ at as early a date as possible along with other improvements which are necessary for the growing work of the church.

SEYMOUR MAN SAYS HE WILL "FIX THINGS" FOR DR. WINTERS

Name Signed to Telegram Sent to
Father of Missing Girl is Not
Disclosed.

According to a Newcastle dispatch to an Indianapolis newspaper a Seymour man is endeavoring to break into notoriety in connection with the Catherine Winters case and the affidavits which have been filed against her parents and S. W. Cooper.

The dispatch says that a man from this city has sent a telegram to Dr. Winters, the missing girl's father, stating that if his expenses were advanced he would go to Newcastle and "fix things" for Dr. Winters. Just what the man meant by "fixing things" is not known. A name was signed to the telegram but was not given out to the public. No attention was paid to the message by Dr. Winters or the authorities.

Since the new developments in the case have been made public the authorities and Dr. Winters have received hundreds of anonymous letters. Some of them state that the girl is still living and will be returned home for a certain amount of money. One message sent from Cincinnati to Prescouter Meyers urged that the prosecution be dropped as Catherine was alive and would be brought home if the required amount of money was forthcoming. Some of the letters have been turned over to the post-office inspector for investigation.

Appreciation.

The Fortnightly Club desires to express their hearty thanks to all who gave donations, to the Interstate Public Service Co., to auto owners and others for their cooperation with us in making the auto excursion a success.

LODGES WILL HOLD UNION EXERCISES

Final Arrangements Made for Memorial Day Ceremonies of Three
Fraternal Orders Sunday.

FIRST BATTALION TO MARCH

I. N. G. Will Also Take Part in Parade—Members to March to
Riverview Cemetery.

Final arrangements for the union Memorial exercises which will be held Sunday afternoon by the Knights of Pythias, Odd Fellows' and Modern Woodmen lodges have been completed by the committee composed of representatives of the three fraternal orders. But three lodges will participate in the exercises this year. The members will meet at their respective halls at 2:30 o'clock Sunday afternoon and the line of march will be formed at the intersection of Chestnut and Second streets.

A feature of the parade will be the appearance of the military organizations of the three orders. The members of the battalion will be dressed in full uniform and will lead the parade. This year the newly organized company of National Guards will march with the battalion. The military organizations and National Guards will have a practice drill tonight and receive instructions as to what maneuvers will be used Sunday.

The Seymour Military Band will have a place at the head of the marching line and the members of the orders will also join in the parade. The committee has announced that after the lines are formed at Second and Chestnut streets the parade will proceed South on Chestnut to Bruce street, countermarch on Chestnut to Second, thence east on Second to Ewing to Riverview cemetery. Because of the new gravel which has been placed on the Ewing street road north of Ninth street the parade will march on Ninth to the Woodstock road then north to the cemetery. In case the roads are dusty they will be sprinkled Sunday morning. This has been done for several years and places the road in a much better condition for marching.

The exercises this year will be in charge of the I. O. O. F. Lodge and Judge Oren O. Swails has been selected as the Memorial Day speaker. He will give an address before the assembled lodges after which the graves of the deceased members of the various lodges will be decorated. The exercises are in charge of one of the participating lodges each year.

The union Memorial Day exercises of the lodges are largely attended by friends as well as by the members. It is expected that more than three hundred men will take part on the exercises this year. The custom of several fraternal orders joining in the ceremonies has proven highly satisfactory.

Misses Delia Burke and Hannah O'Donnell, of Cincinnati, came this afternoon to attend the Sibert-Harlow wedding.

POLICEMAN BRUCE STEWART QUARANTINED FOR SMALLPOX

Night Officer Contracted Disease Several Days Ago and Was on Street Monday Afternoon.

Bruce Stewart, a member of the night police force, is a victim of a well developed case of smallpox. Several physicians examined the patient Tuesday night and found that he contracted this disease. His home at 33 Booth street was quarantined. Stewart became ill last Thursday but it was not until yesterday that the case developed far enough so that it could be pronounced smallpox. Although he has not been working as a policeman since Saturday night he visited the police station Monday afternoon and talked with a number of people there. For several days the eruptions on his face were noticeable but no one suspected that he was suffering from this disease.

At the orders of Dr. M. F. Gerrish, secretary of the city board of health, the police station and the jail were thoroughly fumigated today, and it is not believed there is grave danger of the disease spreading. Every precaution has been taken at the city building. Physicians declare that the greatest danger of spreading the disease comes later after the patient is well on the road to recovery.

The policeman does not know how he contracted the disease as he has not been away from the city. During his absence John Ruddick, extra policeman, will go on duty during the night.

The children are Mrs. Previtt, of this city, Mrs. David A. Morton, of Hartsville, Mrs. Maggie Brady, of Richmond, Mrs. Ella Burgess, of Indianapolis. The remains will be brought here Thursday evening and the funeral arrangements will be made later.

CARRANZA MUST MAKE NEXT MOVE

Mediators Open Way so That Constitutionalists Chief May Participate in Conference.

OBJECTIONS ARE OVERCOME

Huerta, According to Reports, is to Withdraw and is Favorable to New Government.

Niagara Falls, Ontario, June 3.—The attention of the mediators today was turned toward General Carranza, Constitutional chief. From him must come the next move which will determine whether Mexico will be pacified by diplomacy. The way has been opened by the mediators for participation in the conferences by the Constitutionalists if they care to come in.

Rafael Zubaran, minister of the interior in General Carranza's cabinet, who is now in Washington on a special mission, was expected to receive today a note outlining the attitude of the mediators. The communication is phrased diplomatically and paves the way for the entry of the Constitutionalists. In fact, according to those who are well informed, it is difficult to see how the Constitutionalists can refuse—so adroitly have the mediators placed their position before them.

Hitherto the Constitutionalists have had two objections to the mediation program. They declined to discuss internal affairs, but desired to treat on international questions. They refused to arrange a suspension of hostilities against Huerta. Both these objections, it is understood, have in a sense been overcome. A middle ground is believed to have been found, and the mediators feel encouraged. They profess confidence that the Constitutionalists will see their way toward meeting their views.

The argument of the Constitutionalists against discussing internal questions in the mediation is now answered by the Huerta faction, whose delegates have issued a statement saying they regard international and internal questions as so closely interwoven as to make impossible a satisfactory solution of the entire problem without due regard for this interconnection.

The Mexican delegates have also taken a forward step in announcing that General Huerta is preparing to withdraw from the provisional presidency, and will turn over the government to an administration constituted so as to command the support of public opinion. The statement of the Mexican delegates declared that Huerta would resign when Mexico was "politically pacified." This, it is admitted by the Mexicans here, implies clearly that General Huerta means to abide by the decision reached in the mediation conference, and that he has already approved the character of the government to succeed him, as it has been outlined in the conferences.

The peace plan before the mediators is a simple one. It reaches into internal questions only in a general way. Suggestions as to personnel will have to be agreed on privately. The protocol, which will be signed here, will be a declaration of principles on agrarian and educational reforms,

and advice to Mexico to set up a provisional government having due regard to the interests of all factions. The actual composition of the new government will be a matter of physical accomplishment as soon as the protocol is signed, the United States giving its promise to recognize the new government.

OLD TOBROCKE MILL IS LANDMARK AT WAYMANSVILLE

Established in 1856 by the Late William Tobrocke but First Structure was Burned 28 Years Ago.

Damage to the wheat by the Hessian fly is not limited to the Jackson county fields and extends into the adjoining territory. Henry Tobroke, a well known miller of Waymansville, says the wheat crop in that vicinity will be reduced by the pest and some of the farmers do not expect to harvest over one-third of the usual crop. However, the recent rains will be beneficial, it is thought, and the crop may be much better than believed at this time.

Mr. Tobroke, who has made an inspection of the fields in his vicinity, has been connected with the Tobroke Mill at Waymansville for more than twenty years. The mill was established in 1856 or the year following by William Tobroke, who owned it either entirely or in part until 1908. The old mill, a burr mill, was destroyed by fire about twenty-eight years ago and the present mill, roller process, Allfree System, was erected. It has a capacity of forty barrels per day. Some improvements and changes have been made since that time.

Among those interested in the mill with William Tobroke were Herman Aldenhagen, H. F. Borgstede and Henry Tobroke, the present owner. Mr. Aldenhagen was a partner when the old mill was burned and the firm of Tobroke & Aldenhagen built the present mill. Mr. Aldenhagen retired from business about twenty-seven years ago. H. F. Borgstede was interested in the mill for about seven years. Henry Tobroke purchased the business in 1908 and is the sole proprietor. He has been connected with the business as employee, partner and sole owner for twenty-seven years.

CAMPAIGN TALK HEARD AT NATIONAL CAPITAL

Washington is Speculating Seriously Over 1916 Presidential Possibilities.

By United Press.

Washington, June 3.—Washington is beginning to speculate seriously over 1916 Presidential possibilities. Incoming political bees from Indiana, New York, Idaho, Wisconsin, Iowa and Kansas are beginning to arouse the Capital which for weeks past has been honeycombed with possibilities of war.

That President Wilson, his health permitting, will be urged by many Democratic party leaders to accept a second nomination is conceded. That Colonel Roosevelt, fresh from his conquest in South America, will get his hat in the ring, is considered a good bet. That former President Taft is out of all races for Republican party honors is admitted by his best friends.

There is a pretty big hive of political bees, however, who are doing their utmost to eliminate both Wilson and Roosevelt. Some of them for instance—of course they are all loyal to their present party chiefs—are supporters of Majority Leader Underwood, of Alabama, Speaker Clark, Chief Counsel Folk of the Interstate Commerce Commission, Governor Glynn, of New York, and Secretary of State Bryan. Such is the lineup of Democratic possibilities.

Then when it comes time for the Bull Moose to meet in National Convention, Governor Johnson, of California, former Senator Beveridge, of Indiana, and other Progressives probably will find their supporters lined up against T. R., maintaining that that party will stand a better show with the colonel as "backer" than would T. R. as a candidate.

The race the Republicans will have to select from will have a wide range. Senators Borah, La Follette and Cummins are already being considered strong possibilities. Some Indiana Republicans think the nomination should go to former Vice-President Fairbanks.

As the situation is today there will be little shifting in the strength of the possibilities until the elections this fall. Whichever party carries the greatest number of Congressional districts will in a measure have a fair claim to the ascendancy. As far as individual candidates are concerned a great deal of Beveridge's future strength will depend upon the race he makes against Senator Shively for the Senatorial toga from Indiana.

Governor Glynn's measure is in a measure wrapped up in the campaign in that state which will probably be the hottest contest since the 1912 presidential campaign. Underwood's real strength will develop probably after he reaches the Senate. Folk's prospects rest upon his prosecution of the New Haven railroad inquiry.

In the meantime the speculation which is just being heard in Washington will begin to grow as the various states send their reports down here, for Washington is the political filtering plant of the country. Booms

don't get very far until they have made some headway in Washington and then returned to other parts of the nation.

Irrigates the Blood Knocks Rheumatism

A Remedy That Flushes the
Blood from Head
to Foot.

To get rid of rheumatism requires that the blood be completely flushed—not a mere makeshift as by salts and pain killers. The long record of S. S. S. is important to know. It has found its way into every section of the nation. It is the most widely used and most widely talked-of remedy there is for all blood troubles. And it is a known fact that rheumatism is primarily a blood trouble.

It is conceded by the closest students of the subject that rheumatism is caused in most cases by an acid condition of the blood and aggravated by the remedies commonly used for relief. In other cases rheumatism is the result of nerve depression; in still others it is the effect of some vitiated blood condition, having been treated with mercury, iodides, arsenic, and other poisonous mineral drugs.

The recoveries of all these types of rheumatism by the use of S. S. S. is a wonderful tribute to the natural efficacy of this remarkable medicine, for it is assimilated just as naturally, just as specifically, and just as well ordered as the most acceptable, most palatable and most readily digested food. Do not fail to get a bottle of S. S. S. today, but insist upon S. S. S. Don't accept a substitute. You will be astonished at the results. If your rheumatism is of such a nature that you would like to consult a great specialist confidentially, write to the Medical Dept., The Swift Specific Co., 536 Swift Bldg., Atlanta, Ga.

MANY QUAIN'T TOUCHES MAKE THE SUMMER FROCK DISTINCTIVE

Sheerness, small patterns, quaint figures and flowers, a few stripes and various combinations of cotton and silk is the recipe after which most of the summer frocks are fashioned as far as materials are concerned. However, there are numberless effective touches that may be added to give distinction; there is the Japanese collar in various degrees of flare, chemisettes and frills and cleverly arranged girdles and sashes, to say nothing of the numberless other styles. The afternoon frock shown in number 8353 is developed in a flowered cotton crepe de Chine and the chemisette is of organdy. This dress may be copied in size 36, with 4½ yards of 36-inch material.

Most of the new cottons are wide, averaging 38 to 40 inches; in price they range from 75 cents and up.

One of the most favored neck arrangements is shown in number 8365-8366; the bodice is cut in raglan effect and the neck is cut low on the shoulders with a small standing collar of black. Dark blue crepe de Chine forms the bodice and skirt and the frills are of black taffetas. It requires 2 yards of 36-inch material to make this blouse in size 36; the skirt requires 3½ yards of the same width.

Number 8353 sizes 34 to 42.
Number 8365 sizes 34 to 44.
Number 8366 sizes 32 to 32.
Each pattern 15 cents.

These patterns for sale by the Racket Store. L. F. Miller.

A MERE TRIFLE.

The only people in Indiana who favor the proposed appropriation of \$2,000,000 for the erection of a Memorial Hall at the state capital are those who live at Indianapolis. The structure amounts to nothing more than an addition to the present state capitol building to provide quarters for needless officials and commissions that have been appointed by the Democratic legislature. The recent legislature, after making a howl about expenses of the Republican administration, entered upon a program of wild expenditures and the only thing that saved the taxpayers from further waste of public funds was the adjournment of that notable law making aggregation.

During the last few years the state government has cost an enormous sum. Economy has become an obsolete word with the Democratic state house gang. The state tax levy has been increased, additional money received from other sources and still the state is compelled to call upon the county treasurers to make advance payments and temporary loans have been negotiated as the final resort to raise enough cash to defray the running expenses of the state.

In the face of these conditions it would be a stroke of business policy to curb the reckless expenditures and keep the government within its income. If similar procedure were practiced in individual business affairs the only recourse would be bankruptcy but the state officials, knowing that the taxpayers must answer the demands, continue in their wild course unchecked. And, now comes the request for a mere \$2,000,000 to erect a home for the useless commissions which have been created to provide jobs for the faithful of the party in power. The people of Indiana have for several years uncomplainingly carried the burdens but after all they have the final decision as to whether the state government shall be continued along its present policy of waste and useless expenditures or if it shall be placed in the hands of men who will give the people an honest, economical administration.

The Indiana-Panama-Pacific Exposition committee has sent out an "S. O. S." call for another appropriation. Request will be made to have the next legislature appropriate an additional \$60,000 or \$75,000 to complete the state exhibit. With what has already been expended it would seem that Indiana should have an exceptionally fine building. And, in the meantime the Democratic state house officials will be asking for advance loans and trying to excuse their record by explaining how recklessly the Republicans expended the public funds.

The attempt of the Daily Republican to destroy the wheat crop for calamity howling purposes was a

complete failure. As a matter of fact the auto driven over the county on a hunt for a cinch bug was really made in an effort to find something that could be used against the Wilson administration.—Democrat.

The first inkling we have had that it was the administration that put the bug in the wheat.

It is strange how time and circumstances will change the ideas of great men. A few years ago one Thomas R. Marshall toured the State of Indiana and heaped criticism upon the Republican governor for filling lecture engagements for pay during his term of office. Now, this same Thomas R. Marshall, vice-president of the United States, is to enter the chautauqua field and, just think of it, will speak for real money, and all of this to take place while he is occupying a public office.

President Wilson should at least be considerate and not hold the congressmen in Washington after the chautauqua season begins. Many of them have entered into promising contracts.

REFUSES NOMINATION ON THE PROGRESSIVE TICKET

James O. Lee Does not Desire to Make Race for Clerk of Madison Circuit Court—Urges Consolidation.

(Special to Seymour Republican)
Anderson, Ind., June 3.—James O. Lee, on whom the Progressive nomination for clerk of Madison county was "wished" yesterday, sent the following letter to the chairman of the Progressive organization:

"My Dear Sir:—Enclosed you will find attached my resignation as a candidate for Clerk on the Progressive ticket. I wish to thank my many friends for their good wishes but at this time I do not think it is prudent to enter into a campaign where there is no possible chance for an election. I am still of the opinion that in Madison county we should lay aside our petty differences and get together on a ticket which in my opinion, we could elect. Again thanking you and the Progressives of Madison county, I am with best wishes,

Very truly,
JAMES O. LEE."

Charles S. Deneen, former Governor of Illinois, will be the principal speaker at the Madison county Republican convention to be held here next Saturday. The Republicans of Madison are "up on their toes" determined to return the county to the Republican column in November.

Bob Owens was called to Washington county last night about 8 o'clock as a result of the dynamiting of a watering trough on the farm of a resident about six miles from Salem. The trip was made through in an auto and on the arrival of the dogs there this morning about 2 o'clock they took a trail at the location of the trough and carried it to a house some distance away. As a result of the work of the dogs two arrests were made of boys 16 and 19 years of age, who are charged with the deed. One of the guilty parties was released on bond while the other is still in jail to await a hearing in the matter.—Bedford Mail.

Mexico

When that thy poor have cried, what Caesar wept
In sorrow and amaze at their distress?
Who of thy crafty rulers rose to bless—
Thy land exploited and the hearth un-swept?
In hopeless woe thy peon children crept,
Illiterate, in shame and nakedness;
The few amassed, the many in duress,
Rapine aroused, while sluggish justice slept.
Now gaunt guns nose their muzzles at thy gates.
The tyrants and oppressors crouch in fear.
At last overtaken by the offended fates,
Is it the breaking dawn of freedom near?
Peace will come wearing her sweet olive wand,
Lorn, torn, swart sister by the Rio Grande.

MORMON TEMPLE IN CANADA FIRST ON BRITISH SOIL.

Work Well Under Way on \$300,000 Structure at Cardston, Alberta.

Work on the first Mormon temple on British soil is now well under way at Cardston, Alberta, the Mormon center for Canada. The structure will be of granite from the Rocky mountains of British Columbia. Machinery valued at \$10,000 has been installed on the temple ground and cutting will be done there as fast as the rough material can be delivered. As each stone is cut and dressed it will be placed in the wall.

The structure will cost at least \$300,000. This money will come mostly from tithing sent to headquarters at Utah, and the contractors have the assurance of the church that all money needed will be forthcoming when asked for. Bishop Nibley, who has charge of the business affairs of the Mormon church throughout the world, will have direct control of the work, but will not be on the ground. A local inspector and superintendent of construction will direct the local activities.

The Church of Jesus Christ of Latter Day Saints has no temples at present outside of the state of Utah, where the great Salt Lake temple stands. The Salt Lake temple cost \$4,000,000, and was forty-five years in building. The other Utah temples, Manti, St. George and Logan, cost all told about \$3,000,000. Material at the time they were erected was very costly and transportation difficult. It is stated by the authorities that as good building can be done today for about one-third of the cost. So it would seem that the Canadian temple will compare favorably with any of the Utah structures outside of the Great Salt Lake temple.

There are in Canada today close to 10,000 Mormons, and the Cardston temple will be for their own use. Mormons in the northern United States, who are much nearer to the international boundary than the state of Utah, will also have the Canadian temple as their shrine for receiving the higher ministrations of the church.

CHIROPRACTIC

(Ki-ro-prak-tik)

Is the science of adjusting the subluxations (displacements) in the spinal column, commonly called back bone, for the purpose of removing the pressure from impinged nerves. The spinal column is the only place where nerves pass between two hard bony, movable surfaces; therefore, it is the only place nerves can be impinged or the nerve supply restricted, and it matters not what part of the body or organ is affected, the cause is in the spinal column.

We simply analyze the spine and tell you where you are affected. Chiropractic is the only science that removes the cause of disease. No drugs, no pain, no knife. We use nothing but our hands, and the whole object is accomplished when the nerves are released. Paralysis, deafness, loss of voice, catarrh, gall stones, overweight, rheumatism, appendicitis, neuralgia, neurasthenia, epilepsy, St. Vitus dance, eye, ear, throat, lungs, stomach, liver, kidney, bladder trouble, etc., all quickly and permanently disappear under Chiropractic adjustment, properly given. We remove the cause of disease and nature cures. Analysis and consultation free. Investigation costs you nothing and means your life, health and happiness.

Have you sought health with no permanent results and now pronounced incurable? If so investigate Chiropractic.

REDUCING THE RENT.
Mr. Storekeeper, did you ever figure out that you can utilize advertising to reduce your fixed charge for rent?
How?
By the very greatly increased business it will bring you.
Just figure your advertising cost as part of the rent and figure your new percentage on the greater volume.
If it does not work out you have not given the public what they want.
The results of advertising in a good newspaper like The REPUBLICAN are as certain as anything can be if you have voiced your appeal properly.

PATIENCE NEAR
BREAKING POINT

Administration Has Had About
Enough of Carranza.

STILL MUST STAND BEHIND HIM

Notwithstanding Carranza's Recent
Outbreak, Washington Cannot Cut
Loose From the Constitutionalist
Leader, Because It Is Convinced No
Permanent Settlement Can Be
Reached Without His Participation.

Washington, June 3.—The adminis-
tration's patience with Carranza was
stretched almost to the breaking point
when the president and Secretary Bry-
an read the belligerent statement au-
thorized by the first chief. The presi-
dent and secretary had hoped by this
time to smooth the feelings of the me-
diators against Carranza and finally
to bring about his admission to the
Niagara Falls conferences on the basis
which he had suggested. Carranza's
blunt statement, it is feared, has
spoiled the plan of the United States.
Mr. Wilson particularly is said to have
shown great feeling over the develop-
ment.

Notwithstanding Carranza's dispo-
sition to adopt an independent attitude
toward both the mediators and the
United States the Washington adminis-
tration will be obliged to stand him.
They have pulled him into the present
predicament and will be unable to cut
loose from him because they are con-
vinced that no permanent settlement
of Mexico's difficulties can be reached
without the participation of the Con-
stitutionalists.

The news of the statement by the
Huerta delegates that he is willing to
withdraw under certain conditions was
received here with interest. It was
expected as a move by Huerta's rep-
resentatives to strengthen his hand be-
fore the world and to put the Constitu-
tionalists publicly in the position of
assuming full responsibility for the
restoration of peace in Mexico.

At the same time the statement by
Huerta's delegates has added to the
embarrassments of the United States.
The concessions which Huerta has of-
fered to make are substantially those
demanded by the United States when
President Wilson first attempted to in-
tervene in the Mexican situation.

There are hints that the United
States, while still insisting upon the
participation of Carranza in the Niag-
ara Falls proceedings, will endeavor
to steer a course which will avoid
too great a burden and responsibility
in the event of failure of the mediation
program.

STATEMENT OF DELEGATES

Huerta's Representatives Break Their
Long Silence.

Niagara Falls, June 3.—The medi-
ators will send to Venustiano Carranza
their reply to his recent message in
which he is believed to have offered
to participate in the conference under
certain conditions. On the reception
which the Mexican revolutionary leader
will give to this message probably
will hang the fate of the conference.

Meanwhile the statement issued by
the Constitutionalist chief has at least
caused the delegates of General Hu-
erta to break their long and carefully
observed silence. They issued a
statement saying: "General Huerta
is prepared to withdraw from the gov-
ernment on condition that, at the time
of his withdrawal, Mexico shall be
politically pacified and the government
succeeding his shall be such as to
count on the consent of the governed
and on the support of public opinion,
which constitute the real basis for
peace and stability in any country.

"It has been and is President Hu-
erta's wishes to place on record that
neither mistaken pride nor personal
interest will prevent his withdrawal
once the above named conditions are
satisfied.

"The Mexican government accepted
the mediation of the South American
powers, Brazil, Argentina and Chile,
in a frank and open spirit and the
Mexican delegation has been guided
and will be guided in all its acts by
perfect good faith.

"To treat of the interior pacification
of Mexico in the course of delibera-
tions on difficulties of an international
character cannot be considered as
submitting the sovereignty of the na-
tion to an external influence. Said
pacification is necessarily bound up
with the international questions. This
has been appreciated by the Mexican
delegation and in setting forth the
intentions of its government in the
matter and its influence to bring about
the pacification it has been inspired
by the knowledge that without it no
satisfactory conclusion can be arrived
at in the international question."

The reference to the pacification of
Mexico which is contained in the dele-
gate's announcement evidently is in
reply to the contention set forth by
Carranza that the mediators should
not be permitted to interfere with the
internal affairs of Mexico.

CORRECTED FIGURES
INCREASE DEATH LIST

Victims of Disaster Now Num-
ber 1,024.

Quebec, June 3.—Figures of the Em-
press of Ireland disaster corrected
and made public by the Canadian Pa-
cific officials show that 1,024 persons
who were on the ship are unaccounted
for. There were 1,476 persons aboard
the ship when she was struck by the
collier Storstad. Of that number only
452 were saved. There were 89 first
class, 256 second class and 718 third
class, 413 officers and crew. Of the
first class 36 were rescued, 47 second
class, 136 of the third class and 233 of-
ficers and crew. The figures of the
identified dead are 22 first class and 31
second class. Twelve members of the
officers and crew were identified. The
steering figures were not given. The
unidentified will be buried in a few
days.

Negro's Confession Clears Curtis
Smith of Burglary Charge.

Evansville, Ind., June 3.—John Hog-
gens, a negro, in jail here, has con-
fessed that he and another negro named
Walter Snyder, now in jail in Chi-
cago, robbed J. L. Kingsbury's grocery
here last April of a large sum of mon-
ey. Curtis Smith, white, was convicted
of the robbery and is now serving a
prison sentence of from five to eight
years. Steps will be taken at once to
have Smith pardoned. At the time of
his conviction Smith cried in the court-
room and said he was innocent.

Dawson Has Fighting Chance.

Indianapolis, June 3.—It is reported
at the Methodist hospital that Joe
Dawson, who was caught beneath his
machine during Saturday's 500-mile

has a fighting chance to recover, and
if he does will not be affected perma-
nently by the accident.

ZACATECAS NOW
FACING A SIEGE

Villa's Army Approaching Forti-
fied City.

BRISK BATTLE IS IMMINENT

The Rumor That Federal Garrison at
Zacatecas Had Fled on the Approach
of Villa's Army Having Proved
Groundless, It Is Apparent That the
Efforts of the Rebels to Occupy City
Will Be Bitterly Contested.

Nogales, Ariz., June 3.—Blood will
run in the streets of Hermosillo be-
fore Governor Maytorena is forced out
of office by the military element head-
ed by General Obregon and Colonel
Calles. This statement, given out at
Hermosillo by friends of Governor
Maytorena, is taken to constitute the
governor's answer to a petition dem-
anding that the state congress be
convened and Maytorena's alleged dic-
tatorship ended.

Chihuahua, June 3.—General Villa's
fear that Zacatecas and Aguas Calien-
tes would be found evacuated by the
federal garrisons proved groundless
when the rebel commander received
reports of sharp fighting in the vicin-
ity of Zacatecas upon which his army
of 20,000 men is closing in. Villa again
expressed his regret that the railroad
north of Zacatecas has been so thor-
oughly destroyed that his army could
not rapidly surround the city and hurl
explosive shells into the Huerta gar-
rison. The railroad has now been re-
paired to a short distance south of
Fresnillo, about twenty-five miles from
Zacatecas. Outpost detachments of
the Villa army approached close to
Zacatecas without encountering any
federals. They reported the city well
protected by barbed wire entangle-
ments and trenches in which cannon
were visible.

To the south of Zacatecas, however,
a force of Constitutionalists under Col-
onel Catoca, who is under command
of General Natera, engaged a federal
command numbering about 500, killed
sixty and captured the federal train
with ammunition and provisions. The
federals were reinforced from Aguas
Calientes.

General Villa heard without com-
ment a report that General Maas's fed-
eral army had reached San Luis Po-
tosi, despite the fact that General Car-
rera Torres was said to have cut off
the approach to the city and was pre-
pared to give battle. He received
word, however, that a portion of Tor-
res's army under command of Colonel
Fernando Reyes defeated a federal
force at Salinas in an all-day skirmish
fight in which the federal loss in killed
was reported at fifty. Reyes reported
having executed fourteen federal offi-
cers who had been taken prisoners and
having liberated thirty-seven federal
privates.

Reyes also attacked a detachment
of federal reinforcements from San Luis
Potosi and drove them back into the
city, the report said.

HILARITY ON MAYFLOWER

Two Naval Officers Let Themselves in
For Serious Trouble.

Washington, June 3.—Edward C.
Little, a past assistant paymaster at-
tached to the presidential yacht May-
flower has resigned "for the good of
the service," and Lieutenant Archibald
H. Douglas has been transferred from
the Mayflower to the Asiatic steamer.

Five enlisted men reported Mr. Lit-
tle to Secretary Daniels for miscon-
duct on board the Mayflower. The re-
port followed a night of hilarity on the
yacht, which began when the paymas-
ter brought two women on board as
his guests. It is said they had dinner
and then continued the entertainment
till the morning.

Lieutenant Douglas was on duty at
the time as officer of the deck. A sea-
man looking through a cabin light saw
such performances that he reported
immediately to Lieutenant Douglas,
who ordered the man forward. He
failed to take any action as officer of
the deck and after he was relieved
from duty went below and joined the
party. Douglas and Little were two
of the most popular officers in Wash-
ington.

Caught in Burning Hayloft.

South Bend, Ind., June 3.—While his
father struggled in a burning mass of
timbers in an effort to rescue him, and
his mother stood helplessly near, Mel-
vin, the four-year-old son of Mr. and
Mrs. Alvah Gaugler, was burned to
death in the hayloft of an old barn.
The cries of the dying boy could be
distinctly heard by the parents, al-
though they were helpless to save him.
The lad was playing in the haymow
and it is believed started the fire with
matches.

Farmer Killed by Train.

Bluffton, Ind., June 3.—Alexander
Lydy, aged seventy-six, a Wells coun-
ty farmer, was instantly killed when
he was struck by a freight train on
the Erie railroad near his home. He
was walking on the track and stepped
from the path of one train directly in
front of another train on a second
track. Fifteen cars passed over his
body.

GERMAN DOG OF WAR
BARES TEETH AT US

Cruiser Was Cleared for Action
at Vera Cruz.

Berlin, June 3.—In a conspicuous
manner the newspapers here print
cablegrams from Vera Cruz stating
that the German cruiser Dresden
cleared her decks for action while she
was escorting out of the harbor of
Vera Cruz the Hamburg-American line
steamers Ypiranga and Bavaria, which
landed arms for the Huerta govern-
ment at Puerto Mexico. Anti-Ameri-
can papers like the Deutsche Tages
Zeitung comment in an angry manner
on what they term "American arro-
gance."

A semi-official statement says Ger-
many has not instructed her ambassa-
dor at Washington to protest against
the fines of about \$500,000 imposed on
the two steamers by the American cus-
tom authorities at Vera Cruz. The
German foreign office, the statement
says, is awaiting a report from Wash-
ington before taking any steps in the
matter.

THE TRIAL OF IRA MEDLEY

Charged With Murder of Fellow Miner
in Sullivan County.

Sullivan, Ind., June 3.—The trial of
Ira Medley, aged twenty-four, a miner,
of Pleasantville, charged with murder
in the first degree is in progress in the
circuit court.

Medley is charged with killing Trus-
tin Isbell, a fellow miner, by striking
him on the head with a piece of gas
pipe following a quarrel in the Little
Giant mine. The trouble between the
two men is said to have arisen over
the fact that Isbell accused Medley, a
driver, of "making cuts" so as to cheat
him.

Then They Put Him to Bed.

Columbus, Ind., June 3.—Walter
Chitty, a farmer, struggled with his
wife when she tried to prevent him
from hanging himself. While they
struggled a little daughter ran to a
cemetery near by and brought two
men who were digging a grave, and
they arrived in time to cut the rope,
one end of which was around Chitty's
neck and the other over a transom.
He was overpowered and put to bed.

Cuban Statesmen Found Guilty.

Havana, June 3.—Ernesto Asbert,
former governor of Havana province,
and Representative Eugenio Arias
have been found guilty of the assas-
sination in July, 1913, of General Ar-
mando Riva, chief of the national po-
lice, who was shot during an alterca-
tion on the Prado.

He Passed Forged Checks.

Crawfordsville, Ind., June 3.—
Charles M. Daugherty of Darlington,
on a plea of guilty to a charge of for-
gery, has been sentenced to two to
fourteen years in prison. Daugherty
passed a number of forged checks in
this vicinity.

Victim of Vicious Bull.

Knox, Ind., June 3.—Albert Lvoboda,

to death by a bull in his barn.

DEDICATION OF
NEW HOSPITAL

Dr. Long Will Present Gift to
State June 15.

THE FINEST IN THE COUNTRY

Hospital Which Indianapolis Physician
and His Wife Have Given to the
State Is Said to Have the Most Mod-
ern Equipment of Any Similar In-
stitution in the Country and Will Be
Accepted With Formal Ceremonies.

Indianapolis, June 3.—Announce-
ment is made of the plans for the ded-
ication of the Robert W. Long hospital,
said to be the most modern in the
United States, which will be given to
the state of Indiana by Dr. Robert W.
Long of Indianapolis June 15.

Dr. Henry S. Pritchett of New York,
president of the Carnegie Foundation,
will make an address at a meeting to
be held on the afternoon of June 15
in the house of representatives. Gov-
ernor Ralston will preside. Dedicat-
ory ceremonies and the formal pre-
sentation of the hospital will be held
at the hospital building at 4:30 o'clock.
Dr. Long will present the institution to
the state and Governor Ralston will
accept the hospital for Indiana.

A banquet will be held in the even-
ing, when Dr. Pritchett, William Lowe
Bryan, president of Indiana universi-
ty; Governor Ralston, Mayor Bell and
others will speak. Alumni of the Indi-
ana university medical college, trust-
ees of the university and guests will
attend.

The hospital will be used for the
betterment of the health of the entire
state. It will be under the manage-
ment of the Indiana university medical
college. It is planned to study many
forms of disease and to send nurses
and physicians from the hospital staff
to all points in Indiana to aid in fight-
ing local epidemics and attend cases
which demand the most advanced sci-
entific treatment.

PADDED THE VALUE
OF ITS REAL ESTATE

This Is the Testimony Against
Evansville Gas Company.

Evansville, Ind., June 3.—Evidence
to show that the public utilities com-
mission padded the value of its real
estate holdings in this city in its re-
port to the public service commission
was presented in the hearing before
members of the service commission to
obtain a lower gas rate for this city.

That one building owned by the com-
pany has depreciated 80 per cent in
value, and the majority are worth
about half the value placed upon them
by the company, was the testimony of
contractors and architects put on the
stand. William Sherwood, inspector
of the waterworks department, asserted
the company's pipes are falling to
pieces and told of finding them broken
when excavating to lay city water
mains.

A. C. Blinn, manager of the utilities
company, on the stand admitted he
obtained data concerning mains laid
before 1884 from former employees.
City Attorney Brill asserted he would
prove the whole inventory and valua-
tion of its property made by the com-
pany was "guesswork and the greater
part of it all wrong." Chairman
Thomas Duncan rebuked the local
company for the manner in which its
inventory was made.

Run Down by an Auto.

Mishawaka, Ind., June 3.—Willis
(Ted) Wilson, aged twenty-two, was
struck by an automobile and suffered
injuries which may cause his death.
Wilson was alighting from a streetcar
in Mishawaka when he was struck by
a machine bearing the license card
38612 Indiana. The police gave chase
and found the machine, but it had been
deserted by the two men who were in
it when the accident occurred.

Serious Affray in Saloon.

Brazil, Ind., June 3.—William
Wright, aged twenty-eight, a painter,
was shot in the back by Mike Syester,
also a painter, following a quarrel in a
saloon. Wright is paralyzed and in a
critical condition. Syester says he
shot in self-defense.

The Story of Waitstill Baxter

By KATE DOUGLAS WIGGIN

Copyright, 1913, by Kate Douglas Wiggin

CHAPTER XXII.

A Wedding Ring.

THE snow had come. It had begun to fall softly and steadily at the beginning of the week, and now for days it had covered the ground deeper and deeper, drifting about the little red brick house on the hilltop, banking up against the barn and shrouding the sheds and the smaller buildings.

There had been two cold, still nights; the windows were covered with silvery landscapes whose delicate foliage made every pane of glass a leafy bower, while a dazzling crust bediamonded the hillsides, so that no eye could rest on them long without becoming snow blinded.

Town House hill was not as well traveled as many others, and Deacon Baxter had often to break his own road down to the store without waiting for the help of the village snow plow to make things easier for him.

Many a path had Waitstill broken in her time, and it was by no means one of her most distasteful tasks—that of shoveling into the drifts of heaped up whiteness, tossing them to one side or the other and cutting a narrow, clean edged track that would pack down into the hardness of marble.

There were many "chores" to be done these cold mornings before any household could draw a breath of comfort. The Baxters kept but one cow in winter, killed the pig—not to eat, but to sell—and reduced the flock of hens and turkeys, but Waitstill was always as busy in the barn as in her own proper domain.

Her heart yearned for all the dumb creatures about the place, intervening between them and her father's scanty care, and when the thermometer descended far below zero she would be found stuffing hay into the holes and cracks of the barn and henhouse, giving the horse and cow fresh beddings of straw and a mouthful of extra food between the slender meals provided by the deacon.

It was 3 o'clock in the afternoon, and a fire in the Baxters' kitchen since 6 in the morning had produced a fairly temperate climate in that one room though the entries and chambers might have been used for refrigerators, as the deacon was as parsimonious in the use of fuel as in all other things, and if his daughters had not been hardy young creatures, trained from their very birth to discomforts and exposures of every sort, they would have died long ago.

The Baxter kitchen shone and glittered in all its accustomed cleanliness and order. Scrubbing and polishing were cheap amusements and nobody grudged them to Waitstill. No tables in Riverboro were whiter, no tins more lustrous, no pewter brighter, no brick hearths ruddier than hers. The beans and brown bread and Indian pudding were basking in the warmth of the old brick oven, and what with the crackle and sparkle of the fire, the gleam of the blue willow ware on the cupboard shelves, and the scarlet geraniums blooming on the sunny shelf above the sink, there were few places to be found in the village than that same Baxter kitchen.

Yet Waitstill was ill at ease this afternoon; she hardly knew why. Her father had just put the horse into the pump and driven up to Milliken's mills for some grain, and Patty was down at the store instructing Bill Morrill (Cephas Cole's successor) in his novel task of waiting on customers and learning the whereabouts of things; no easy task in the bewildering variety of stock in a country store, where pins, treacle, gingham, epsom salts, Indian meal, shoestrings, shovels, brooms, sulphur, tobacco, suspenders, rum and indigo may be demanded in rapid succession.

Patty was quiet and docile these days, though her color was more brilliant than usual, and her eyes had all their accustomed sparkle. She went about her work steadily, neither ranting nor railing at fate, nor bewailing her lot, but even in this Waitstill felt a sense of change and difference too subtle to be put in words. She had noted Patty's summer flirtations, but regarded them indulgently, very much as if they had been the irresponsible friskings of a lamb in a meadow.

Waitstill had more than the usual reserve in these matters, for in New England at that time, though the soul was a subject of daily conversation, the heart was felt to be rather an indelicate topic to be alluded to as seldom as possible. Waitstill certainly would never have examined Patty closely as to the state of her affections, intimate as she was with her sister's thoughts and opinions about life. She simply bided her time until Patty should confide in her.

She had wished now and then that Patty's capricious fancy might settle on Philip Perry, although, indeed, when she considered it seriously, it seemed like an alliance between a butterfly and an owl. Cephas Cole she regarded as quite beneath Patty's rightful ambitions, and as for Mark Wilson, she had grown up in the belief, held in the village generally, that he

would marry money and position and drift out of Riverboro into a gayer, larger world. Her devotion to her sister was so ardent and her admiration so sincere that she could not think it possible that Patty would love anywhere in vain. Nevertheless she had an instinct that her affections were crystallizing somewhere or other, and when that happened the uncertain and eccentric temper of her father would raise a thousand obstacles.

While these thoughts coursed more or less vaguely through Waitstill's mind she suddenly determined to get her cloak and hood and run over to see Mrs. Boynton. Ivory had been away a good deal in the woods since early November chopping trees and helping to make new roads. He could not go long distances like the other men, as he felt constrained to come home every day or two to look after his mother and Rodman, but the work was too lucrative to be altogether refused.

With Waitstill's help he had at last overcome his mother's aversion to old Mrs. Mason, their nearest neighbor, and she, being now a widow with very slender resources, went to the

"Hurry up and don't make me stand here all winter!"

Boynton's several times each week to put the forlorn household a little on its feet.

It was all uphill and down to Ivory's farm, Waitstill reflected, and she could take her sled and slide half the way, going and coming, or she could cut across the frozen fields on the crust.

She caught up her shawl from a hook on the kitchen door, and, throwing it over her head and shoulders to shield herself from the chill blasts on the stairway, ran up to her bedroom to make herself ready for the walk.

She slipped on a quilted petticoat and a warmer dress, braided her hair freshly, while her breath went out in a white cloud to meet the freezing air; snatched her wraps from her closet, and was just going down the stairs, when she remembered that an hour before, having to bind up a cut finger for her father, she had searched Patty's bureau drawer for an old handkerchief, and had left things in disorder while she ran to answer the deacon's impatient call and stamp upon the kitchen floor.

"Hurry up and don't make me stand here all winter!" he had shouted, "if you ever kept things in proper order you wouldn't have to hunt all over the house for a piece of rag when you need it!"

Patty was very dainty about her few patched and darned belongings; also very exact in the adjustment of her bits of ribbon, her collars of crocheted thread, her adored coral pendants and her pile of neat cotton handkerchiefs, hemstitched by her own hands. Waitstill, accordingly, with an exclamation at her own unwonted carelessness, darted into her sister's room to replace in perfect order the articles she had disarranged in her haste. She knew them all, these poor little trinkets—humble, pathetic evidences of Patty's feminine vanity and desire to make her bright beauty a trifle brighter.

Suddenly her hand and her eye fell at the same moment on something hidden in a far corner under a white "fascinator," one of those head coverings of filmy wool, dotted with beads, worn by the girls of the period. "She drew the glittering, unfamiliar object forward and then lifted it wonderingly in her hand.

It was a string of burnished gold beads, the avowed desire of Patty's heart—a string of beads with a brilliant little stone in the fastening. And, as if that were not mystery enough, there was something slipped over the clasped necklace and hanging from it, as Waitstill held it up to the light—a circle of plain gold, a wedding ring!

Waitstill stood motionless in the cold, with such a throng of bewildering thoughts, misgivings, imaginings, rushing through her head that they were like a flock of birds beating their wings against her ears. The imaginings were not those of absolute dread or terror, for she knew her Patty.

If she had seen the necklace alone she would have been anxious indeed, for it would have meant that the girl, urged on by ungovernable desire for the ornament, had accepted a present from one who should not have given it to her secretly. But the wedding ring meant something different for Patty—something more, something certain, something unescapable, for good or ill.

A wedding ring could stand for nothing but marriage. Could Patty be married? How, when and where could so great a thing happen without her knowledge? It seemed impossible.

How had such a child surmounted the difficulties in the path? Had she been led away by the attractions of some stranger? No, there had been none in the village. There was only one man who had the worldly wisdom or the means to carry Patty off under the very eye of her watchful sister, only one with the reckless courage to defy her father, and that was Mark Wilson. His name did not bring absolute confidence to Waitstill's mind. He was gay and young and thoughtless. How had he managed to do this wild thing, and had he done all decently and wisely, with consideration for the girl's good name?

The thought of all the risks lying in the train of Patty's youth and inexperience brought a wail of anguish from Waitstill's lips, and, dropping the beads and closing the drawer, she stumbled blindly down the stairway to the kitchen, intent upon one thought only—to find her sister, to look in her eyes, feel the touch of her hand and assure herself of her safety.

She gave a dazed look at the tall clock and was beginning to put on her cloak when the door opened and Patty entered the kitchen by way of the shed—the usual Patty—rosy, buoyant, alert, with a kind of childlike innocence that could hardly be associated with the possession of wedding rings.

"Are you going out, Waity? Wrap up well, for it's freezing cold. Waity, Waity, dear! What's the matter?" she cried, coming closer to her sister in alarm.

Waitstill's face had lost its clear color, and her eyes had the look of some dumb animal that has been struck and wounded. She sank into the flag-bottomed rocker by the window and, leaning back her head, uttered no word, but closed her eyes and gave one long, shivering sigh and a dry sob that seemed drawn from the very bottom of her heart.

Statements That May Be Investigated. Testimony of Seymour Citizens.

When a Seymour citizen comes to the front, telling his friends and neighbors of his experience, you can rely on his sincerity. The statements of people residing in far away places do not command your confidence. Home endorsement is the kind that backs Doan's Kidney Pills. Such testimony is convincing. Investigation proves it true. Below is a statement of a Seymour resident. No stronger proof of merit can be had.

Mrs. Henry Moritz, 528 W. Laurel St., Seymour, Ind., says: "The public statement I gave in praise of Doan's Kidney Pills some years ago was correct and you may continue using it. I know that this preparation is worthy the name of an honest kidney remedy. I suffered intensely from lameness across the small of my back and my rest was broken at night. The kidney secretions were irregular in passage and I also had severe headaches. Doan's Kidney Pills corrected these troubles."

VETERANS WHO SUPPORTED ROOSEVELT COMING BACK

Letter, Typical of those Sent to State Committee, Received from Joel B. Garrison.

Indianapolis, Ind., June 2.—It is apparent from the letters that are being received at Republican state headquarters from former Progressives, announcing publicly their affiliation with the Republican party, that the civil war veterans are again rallying to the support of the G. O. P. The following letter from Joel B. Garrison, of Hendricks county, is typical: "I want to see the Republicans unite under the Eagle. That is the only way we can do effective work against the Democrat party."

"I have been a Republican all my life and am a believer in the policies of the Republican party. I was a soldier in the civil war and marched with Sherman to the sea. I voted for Roosevelt in 1912, not because Taft was a protectionist but because I thought he wasn't."

WOULD DISSOLVE THE MERGER OF RAILWAYS

New Haven-Boston & Maine Divorce Sought.

Boston, June 2.—The house has received Governor Walsh's message on the proposed New Haven-Boston and Maine dissolution. He says the union has been an unfortunate one for both railroads and New England and should be abolished. He suggests that the financial structure of the Boston and Maine should be reorganized by consolidating its component parts now held together under leases. The governor believes that the divorce can be accomplished with the least disturbance to business by the method agreed upon by the federal government and the New Haven. The form of this agreement was submitted to the house and the governor requested the enactment of enabling legislation permitting the New Haven to sell its control in the Boston holding company and the latter to dispose of its stock control in the Boston and Maine. This is to be done by transferring the stock to five "liquidators" whose duty it shall be to sell the shares within two and a half years; to select a new board of directors for the Boston and Maine with a substantial representation of the minority stockholders. The governor says: "The whole spirit of the readjustment implies an obligation to free the road from the influence of men that have been harmful in the past."

NO TRACE OF BODIES FOUND

But One of Four Terre Haute Victims of Disaster Recovered.

MI-LADY'S FACE POWDERS.

A problem of great interest to many women as the summer months come on.

There are as many kinds and varieties of these needed complexion helps as there are sands in the sea.

What may be just right for one complexion may be wrong for another.

Many of the leading dealers in Toilet Articles are advertisers in THE REPUBLICAN.

We invite our readers to consult with them.

Perhaps the choice of the right face powder is a small matter—but we cite it as one of thousands of instances in which advertising is helpful.

SPECIAL TO WOMEN

The most economical, cleansing and germicidal of all antiseptics is

Paxtine

A soluble Antiseptic Powder to be dissolved in water as needed.

As a medicinal antiseptic for douches in treating catarrh, inflammation or ulceration of nose, throat, and that caused by feminine ills it has no equal. For ten years the Lydia E. Pinkham Medicine Co. has recommended Paxtine in their private correspondence with women, which proves its superiority. Women who have been cured say it is "worth its weight in gold." HAROLD H. BROWN TO SPEAK AT EXHIBIT FRIDAY NIGHT

Director of Herron Art Institute at Indianapolis, will Give Address at Local Exhibit.

Harold H. Brown, a director of the John Herron Art Institute at Indianapolis, has been engaged to give an address at the local art exhibit Friday night, according to the announcement made today by Earl M. Cox, secretary of the Seymour Art League. Friday will also be Guest Day and invitations have been issued to several women's clubs in this part of the state. The lecture, it is announced, can be heard only by the members of the League.

Mr. Brown is a recognized authority on art and sculpture. He has not announced upon what subject he will speak. He was formerly director of the Chicago University of Art and takes an active part in the work of the Indianapolis institute.

A good crowd visited the exhibit Tuesday afternoon and evening. The school building is open to the public each day.

F. P. Smith, of the I. C. & S. Traction Company, was in the city Tuesday evening on his way to Bedford state. The lecture, it is announced, on business.

WRITES OF LIFE IN THE ARCTIC

MacMillan Says Party Built a "Palace" at Etah.

LEFT THERE LAST FEBRUARY

Crocker Land Seekers Faced Journey of 1,000 Miles in Temperature of From 30 to 70 Degrees Below Zero. Hopeful of Finding New Continent, but Apprehensive of Disaster.

Reports from the Crocker Land expedition have been received by the American Museum of Natural History, through President Osborn and Dr. Edmund Otis Hovey, four months after the documents were prepared. Knud Rasmussen, the Danish explorer, brought the letters out of the frozen north, and they were forwarded by him from Copenhagen.

In his letter to President Osborn Donald B. MacMillan, head of the expedition, tells of attempts to reach civilization by wireless and of how in the spring kites would be used in the hope of some time finding conditions right. He tells of the contemplated trip of more than 1,000 miles to Crocker Land, with a temperature ranging from 30 to 70 degrees below zero.

The letter to Dr. Hovey, director of the expedition, sets forth that the dash across the polar sea from Cape Thomas Hubbard to Crocker Land is to be made by MacMillan, Elmer Ekblaw and Fitzhugh Green, with eight Eskimos.

Provisions Will Last Two Years.

The party, it is thought, is now well on its way back to the base at Etah, an electrically lighted "palace," as MacMillan calls it. In the fall the world will know if Crocker Land is a great continent, as Admiral Peary thought when he saw it from Cape Thomas Hubbard in 1906.

MacMillan says he has provisions only for two years instead of three.

To President Osborn he says:

"Will do my best to do all the work as planned, do it well and bring every man back."

A letter to Dr. Hovey says:

"President Osborn's Christmas dinner was a great treat. My, but that chicken tasted good!"

The letter from MacMillan to President Osborn, dated Etah, North Greenland, Jan. 10, 1914, says:

"The midnight of the long arctic winter is over, with every one in good health and eager for the big work ahead of us. Apparently the darkness and absence of the sun have had no effect at all upon the boys. They are just as happy as ever and singing most of the time.

"The day after the ship left us we began excavating with picks and dynamite for our house, selecting a well sheltered spot in the midst of the Eskimo igloos. The work went on day and night, and on Sept. 12 we moved into a large, comfortable home, 34 by 34, eight rooms on the ground floor and a large attic for a storeroom.

"I am quite sure we have the most palatial residence ever put up in the arctic, with our electric lights and telephone to two Eskimo igloos. Have tried to make the boys just as comfortable as possible as an inducement to good work, giving them good, warm rooms and good, warm clothing.

"I have succeeded in establishing two provision stations on the line of march to Crocker Land, one at Anoriktok, about twenty-five miles north of here, and the other across Smith sound, over in Ellesmere Land, at the entrance of Buchanan bay.

Peary's Best Man in the Party.

"I have secured some of the very best men in the north. They are interested in this new land out on the Polar sea and want to see it. I have Pee-ah-wah-to, Sipsoo and Eisayoo of the world's record of 1906; Ootah, of north pole fame; Peary's best man, Apellah, and I took a shoe, who kept Dr. Cook alive on his long trip; also eight other good men who have been with Peary on various trips. They are confident that if the land is there we shall have no trouble getting it.

"But I am looking for trouble and am guarding against it in every possible way. We have over 1,000 miles to go in a temperature ranging from 30 to 70 below. The evil spirit of the arctic is always watching and can change success into misfortune and failure within a few hours.

"We have ample provision for two years, but not for three, but we could easily stay there, living as the Eskimos do. We shall leave the house here for Crocker Land about Feb. 10, with twenty-one men and 160 dogs. Will remain on the other side just as long as we possibly can."

CHILDREN'S "DON'TS."

From the pledge exacted from members of the Junior Housewives' league, of which Mrs. Julian Heath is president:

Don't buy sweets of any kind from unclean stores.

Don't buy soda water and ice cream served in glasses or dishes not properly washed.

Don't gulp down iced drinks during the hot weather.

Don't eat "varnished" chocolate.

How We Fall Asleep.

It is not generally known that the body falls asleep in sections. The muscles of the legs and arms lose their power long before those which support the head and these last sooner than the muscles which sustain the back. The sense of sight sleeps first, then the sense of taste, next the sense of smell, next that of hearing and lastly that of touch. These are the results of careful and lengthy investigation by a French scientist, M. Cubanis.—London Telegraph.

DIVORCE YOURSELF From Dirt, Dust and Drudgery

by using a **Duntley**

Combination Pneumatic Sweeper

Release from broom drudgery—from the strain of moving and lifting furniture and from the dangerous scattering of dust and germs that are raised by the use of the broom and the old fashioned carpet sweeper, can be attained by the use of the **Duntley Combination Pneumatic Sweeper**, which, although easily operated by hand, creates powerful suction force which draws out all the dirt and dust found in your rugs and carpets and at the same time the revolving brush picks up all lint, pins, threads, ravelings, etc.

THE DUNTLEY SWEEPERS are made in three sizes and sold under a rigid guarantee for one year. You may try a Duntley in your own home for 10 days Free of Charge.
